Simply add together your fulfilment and storage fees and any optional services you require to calculate your total FBA Fee

Calculate your fulfillment fee by identifying the destination country, ship speed, and size band of your units shipped. Then determine the number of units in your order (UPO). If an order has 1 unit, then it will be charged the 1 UPO rate. If an order has 2/3 units, all units in that order will be charged the 2/3 UPO rate.

You will be charged in the currency (GBP or EUR) of the Amazon Seller Central account from which you submit your order. Both currencies are shown in the table.

Fulfilment by Amazon Fees

Q1: If I am selling on Amazon, do I pay other fees in addition to the fulfilment fees, storage fees, and optional service

Yes, you pay a subscription fee or per-item fee depending on your current selling plan. You also pay a referral fee per category and closing fee per media item sold. A returns processing fee is charged on customer-returned products sold on Amazon (see FAQ 5). To see which fees and selling plan apply to you, please visit Selling on Amazon Fee Schedule and Seller. Pricing and Plans.

Q2: What impact does the elimination of packaging weight have on the fulfilment

This change simplifies the fulfilment fee calculation for your shipped units. You should not see any change to your fees due to the elimination of packaging weight. Prior to June 8, 2021, packaging weight was added to the unit weight to determine the final chargeable shipping weight of a product. Starting June 8, 2021, packaging weight will no longer be added to unit weight and the unit will be charged as per its own weight and dimensions only. For example: A Standard Parcel in the first weight tier used to have a total limit of 250g, for which a 100g packaging weight was a component of, and your max unit weight was therefore the remaining 150g. With the new fee display, your max unit weight for that weight tier is still the same (150g), without the need to factor in packaging weight, and our weight tiers have been adjusted to reflect this change.

Q3: How are Storage Fees calculated?

Storage Fees are charged for all units stored in an Amazon fulfilment centre based on calendar month and your daily average volume per cubic metre (or cubic feet for UK). The cubic metre of any unit will be based on the unit's size as properly packaged and ready for shipment to customers in accordance with FBA programme policies. Amazon will be entitled to make its own measurement of the cubic metre or weight of any packaged unit or representative sample thereof and in the event of any conflict between such measurement and information provided by the seller, Amazon's measurement will govern.

Q4: What are Long-term Storage Fees

The long-term storage fees (LTSF) are in addition to regular inventory storage fees and only apply to inventory aged more than 331 or 365 days. For inventory stored between 331-365 days, monthly fee of £ 0.9 per ft3 / € 37 per m³ / € 38.10 per m³ (FR only) / 371 kr per m³ is charged for all categories except Clothing, Shoes and Bags, Jewelry and Watches. For all inventory stored more than 365 days the greater between the following options will be charged as your LTSF: (1) monthly LTSF of £ 4.30 per ft³ / € 170 per m3 / € 175.10 per m3 (FR only) / 1785 kr per m3 for all categories or (2) minimum LTSF of £ 0.10/ € 0.10 / 1 kr per unit in the media category. The LTSF will not be charged if a request has been made to remove or dispose of the units prior to the fee being charged. For more information on how to calculate the LTSF, visit FBA long-term storage fees

Q5: What is the returns processing fee?

The Returns Processing Fee is equal to 50% of the total fulfilment fee for a given product in the Clothing, and Shoes and Handbags categories. These fees apply to units fulfilled from local inventory as well as across Europe though the European Fulfilment Network (EFN) program. For more information visit the Returns Processing Fee page.

Q6: Are media and non-media items that are Sold On Amazon charged different Fulfilment Fees?

Media and non-media items that are Sold On Amazon are charged the same Fulfilment Fees.

Fulfilment by Amazon Policies

Q7: Am I restricted on the types of products I can fulfil through FBA?

Yes. Please consult the <u>FBA product</u> <u>restrictions</u> for detailed information about product restrictions.

Q8: How do customer returns work?

Amazon processes your customer returns using Amazon's customer returns policies. Reimbursement credits and referral fee credits are issued to you for all or part of the value of a refund. FBA fees, restocking fees, and returns processing fees may be charged depending on the item. For more information on how the fees or credits are applied to your account, please visit FBA customer returns policy.

Q9: What happens if my items are damaged or lost when being handled by FBA?

You may be eligible for a reimbursement. For eligibility criteria and more information on the policy, see <u>FBA Lost and Damaged Inventory Reimbursement Policy</u>.

Q10: Do my customers receive Amazon's customer service?

For items sold on Amazon, Amazon will handle fulfilment and customer service for their orders. This customer service includes managing customer enquiries, refunds and returns for FBA items bought on the Amazon website. Multi-Channel Fulfilment (sold off Amazon) orders are not eligible for customer service. Learn more about <u>Customer service for Multi-Channel Fulfilment orders</u>.

Q11: What are Amazon's policies and requirements for preparing and shipping inventory to fulfilment centres?

Amazon has label, packaging, preparation, and inventory storage limit requirements. For detailed information on inventory requirements, visit <u>Amazon Inventory</u> <u>Requirements</u>.

For more information, visit <u>Amazon Policies and Requirements</u>.

Additional Services and Programs

Q12: What is the Central European Program (CEP)?

Amazon has extended its German Fulfilment network with several Fulfilment centres in Poland and Czech Republic in order to fulfil growing demand and increase efficiencies. Sellers with German inventory can opt to either store their inventory in Amazon's fulfilment network including Poland and Czech Republic or continue to store their inventory exclusively in Germany. Sellers storing their inventory exclusively in Germany are charged an additional £0.26/€0.26/€0.27 (for FR inclusive of DST)/2.50 kr/1.15 zł of Fulfilment Fee per FBA unit shipped from German fulfilment centres. Pan EU Sellers who do not participate in CEP are also charged this additional fee. Some product categories may not be eligible for the CEP. Amazon charges no extra costs for participation in the CEP. Remember: it is the responsibility of the seller to know that storing inventory in Poland and Czech Republic will trigger VAT obligations and other reporting requirements. For more information, please visit the Central European Programme page.

Q13: What are the cross-border fulfilment options?

Fulfilment by Amazon offers three crossborder fulfilment solutions: Pan-European FBA, European Fulfilment Network (EFN), and Multi-Country Inventory (MCI).

Q14: What is Pan-European FBA?

With Pan-European FBA, Selling Partners choose where to store their products for Amazon to distribute them according to expected customer demand, at no additional cost. In the countries enabled for placement, Selling Partners will benefit from local FBA fulfilment fees and faster delivery promise¹ By storing goods in additional countries other than the home store, additional VAT reporting requirements may arise. Amazon supports Selling partners by providing resources and solutions that can help with VAT compliance. VAT Services on Amazon is a solution to manage your European VAT registration and filing obligations through Seller Central. To learn more about VAT, visit our VAT educational page and start now with VAT Services on Amazon. Find further information on the Amazon Pan-European FBA website.

Q15: What is European Fulfilment Network (EFN)?

With European Fulfilment Network (EFN), you can reach customers in all 7 EU marketplaces with local product listings. Sellers send their inventory to one local fulfilment centre and deliver to other EU marketplaces with cross-border fees and deliver domestically with local fulfilment fees. For example, an Italian customer shopping on Amazon.it can see products sold by a DE seller with a product listing translated in Italian, and buy it for delivery to Italy. The DE seller would pay cross-border fees if the inventory is in a DE fulfilment centre. Note: Due to Brexit, as of January 1st 2021, Amazon is unable to fulfill FBA orders across the border between the UK and EU. To sell with FBA in both the UK and EU, you will need to send inventory to fulfilment centres in the UK and EU. Click here

Q16: What is Multi-Country Inventory

Multi-Country Inventory (MCI) allows you to send items directly to international Amazon fulfilment centres for storage in the other marketplaces that is not your local marketplace. Local FBA fees apply for sales in marketplaces where you store inventory and cross-border fees apply for sales in marketplaces where you do not store inventory; however, you need to manage your inventory and demand forecasting yourself. Amazon.nl does not participate in MCI.

Q17: What are the tax implications of international selling?

If you sell goods in any EU country, it's likely you may be required to register for Value Added Tax (VAT) and comply with VAT filing requirements in each country you sell in. Storing goods in any EU country will likely also require you to comply with VAT obligations in that country. Visit Amazon's VAT knowledge Centre to find out more. Enroling in VAT services on Amazon can help you manage your VAT compliance obligations. Remember: it's the responsibility of each Amazon seller to ensure they are VAT compliant and you should seek professional advice if you are unsure of your obligations.

¹Local fulfilment fees carry an additional surcharge, please refer to Pan-European Surcharge Oversize table on page 3.
